QUEENSLAND

AT A GLANCE

ABS Catalogue No. 1312.3

[*front cover with photo as 1998/99 pocket year book*]

Situated generally between 10° and 29° south latitude and between 138° and 154° east longitude, Queensland occupies the north-eastern portion of the Australian continent. The coastline extends for 9,800 kilometres, including islands (7,400 kilometres on the mainland). Of the total area—1,727,200 square kilometres—just over half is north of the Tropic of Capricorn. Of the six States of the Commonwealth, Queensland ranks second in area and third in population.

Queensland is a constituent State of the Commonwealth of Australia, observing the Federal Constitution, and, while returning elected members to both upper and lower houses of the Federal Parliament, is governed by its own State Parliament. Local government derives its powers from Acts passed by the State Parliament. The capital city is Brisbane.
